

PROTOTYPE TEAM MEETING REPORT

Project/Group Name: Move & Learn: Motor Skills Development App

Meeting Date: 28/07/2025

Meeting #: 04

Meeting Location / Platform: Room 403

Meeting Type: ☒ Progress Update ☐ Planning ☐ Review ☐ Other: _____

Attendance

Members	Present	Absent	Guests
Setara Ahmadian	✓		
Alia Rezae	✓		
Mahboba Sakhizada	✓		
Zulaikha Mohammadi	✓		

Meeting Objectives

1. Begin building the app prototype with a focus on core user needs.
2. Test app features based on storyboard scenarios and user persona.
3. Gather team feedback and note issues to improve the next iteration.

Meeting Summary

Key Discussions

- Reviewed the user persona (Akbar) and storyboards to align prototype features with real needs.
- Shared early versions of app screens, including:
 - Main menu with big, clear buttons.
 - “Catch the Balloon” adaptive speed game with simple visuals.
 - Fun sound and visual rewards for engagement.
 - Option to adjust game difficulty manually.
- Team tested the prototype, noting what worked well and what was confusing or difficult.
- Talked about how to keep the app simple for children and parents, and easy for therapists to explain.

Decisions Made

- Keep only the most important features in the first version (easy navigation, visual/sound feedback, adaptive play).
- Plan for short user testing with classmates or volunteers if possible.
- Update prototype after feedback before starting on the final version.

Action Items

Task	Owner	Priority	Deadline	Status	Notes
Finish main screens for prototype	All Team	High	01/08/2025	Done	Use large buttons and clear labels
Add adaptive speed/feedback features	All Team	High	01/08/2025	Done	Based on storyboard and persona needs
List improvements for next version	All Team	Medium	01/08/2025	Done	Use peer feedback and team testing notes

Next Meeting

Date: 02/08/2025

Time: 02:00 PM

Location/Platform: Room 403

Agenda Items:

1. Conduct user testing of the prototype with target users (children with cerebral palsy, caregivers, therapists if possible).
2. Collect feedback on ease of navigation, engagement, adaptive features, and overall usability.
3. Note challenges, confusion points, and suggestions for improvement.
4. Discuss plans for iterating the prototype based on user feedback.

Additional Notes:

- Consider using simple moderated testing where a team member guides the user through tasks and observes reactions.
- Use clear, easy tasks aligned with key app features from the prototype and storyboards.
- Record observations carefully to support refinement of the app.
- Aim to test with at least 1-2 users for initial insights.
