Mahboba Sakhizada	✓		
Zulaikha Mohammadi	✓		

Meeting Objectives

1. Review and test the app prototype.
2. Ensure main features and design match user and stakeholder needs.
3. Plan small improvements before user testing.

Meeting Summary

Key Discussions

- The team walked through the app's main screens: home, game selection, and the "Catch the Balloo" game.
- Checked that the adaptive speed, sensory feedback (sounds, colors), and easy navigation all work as designed.
- Ensured the design remains simple and accessible for children with mild cerebral palsy.
- Noted a few areas to improve: clearer instructions at the start, add exit button, make sounds softer, and fix a bug with color recognition.
- Discussed plan for the next step: getting feedback from real users and caregivers.

Decisions Made

- All team members will review the prototype again independently and list any small bugs or confusion points.
- Minor visual fixes and text changes will be done before the user testing session.
- The current version will be used for initial user testing.
